Warden Children's Day event/booster seat education

May

Annual "Bike to school day" event

City of Moses Lake "Chevy and Schwinn's" annual bike rodeo and ride event

June

World's largest swim lesson

Monies from the NCECC grant I received last year have not had to be utilized at this point. As we get into the warmer months we will need to restock our Life Jacket Loaner Boards... without your continued support I would not be able to keep those boards functional. As we live in an area where water recreation is abundant during the summer months more and more families have really become to rely on these jackets to keep their loved ones safe on the water. The weather also contributes to the upkeep of both the boards and jackets. I am looking to purchase jackets sometime in April or May. I will work with distributors to get the best deal possible. Once again... thank you for all the support you have given our organization throughout the years. Your monies not only support the life jacket boards but will also allow me to support our Child Passenger Safety program and allow me to continue to do events in our community.

Sincerely

Maria Vargas

Safe Kids Coordinator of Grant County
